on the Preston Western Distributor, East-West Link Road and Cottam Link Road

The Preston, South Ribble and Lancashire City Deal sets out ambitious plans for highway and transport across Preston and South Ribble to support new development and economic growth across the area.

A new road linking Preston and southern Fylde to the M55, known as the Preston Western Distributor, and two new link roads, will support planned housing in north west Preston, improve access to the new Enterprise Zone at Warton and provide an alternative for drivers to avoid peak hour congestion in the city centre.
